

Informações de paletes e embalagens de módulos FV SHARP

Aplicável aos seguintes 144 tipos de módulos de célula:

NU-JD540

Tamanho da Paleta		Informação de entrega		Nome da embalagem		Material	Peso																																																																																																																																																																								
Comprimento Largura	2.311 mm 1.125 mm	Módulos por paleta	31 unidades	Caixa de embalagem	Papel ondulado	11,2 kg																																																																																																																																																																									
Pilha única de altura	1.250 mm	Módulos por caminhão (40 pés)	620 unidades	Paleta	Madeira compensada	22,4 kg																																																																																																																																																																									
Pilha dupla de altura	2.500 mm	Paletes por caminhão (40 pés)	20 unidades	Alça de Plástico	PET	1,5 kg																																																																																																																																																																									
Peso de pilha única (paleta + módulos)	945 kg	Direção do módulona paleta	em péaldo longo	Envoltório plástico	PEL5D98	1,3 kg																																																																																																																																																																									
Peso da pilha dupla (paletes + módulos)	1.890 kg
