

Data Act – Connected Product Compliance Documentation

Name of the series / product:	SHARP Digital Multifunctional System	
Model Number:	BP-90C70/80, BP-80C70/80, MX-7081/8081, BP-60C31/36/45, BP-70C31/36/45/55/65, BP-50C26/31/36/45/55/65, BP-55C26, BP-61C31/36/45, BP-71C31/36/45/55/65, BP-51C26/31/36/45/55/65, BP56C26, BP-30C25, BP-22C25, BP-C533WR/WD, BP-C542WD, BP-C131WD, MX-M1056/M1206, BP-70M75/90, BP-70M31/36/45/55/65, BP-50M26/31/36/45/55/65, BP-71M31/36/45/55/65, BP-51M26/31/36/45/55/65, BP-30M28/31/35, BP-20M22/24/31, BP-B537WR, BP-B547WD, BP-C131PW, BP-C542PW, BP-B547PW	
Type of Data:	Format of Data:	Estimated Volume:
Device Cloning Data	xml	xml storage: 1MB/time
User Information Data (Storage Backup)	xml	xml storage: 5MB/time
Usage history data (Job log)	csv	csv storage: 60MB/time
Audit Log Data	tsv	Transmission: 1KB/event tsv storage: 30MB/time
Is the product capable of generating data continuously and in real time?	☒ Yes ☐ No	
Is the data deemed a trade secret?	☒ Yes ☐ No	
Is data storage on the Connected Product or on a remote server? ^{*1}	☒ On the Device ☒ Remote Server	
Who is the holder of the generated data? ^{*1}	☒ User ☐ Sharp Corp. ☒ Service Provider: Copy of "Usage history data" can be collected and holder by 3 rd party software (OneStop, PrintFleet, 3Manager, MPS Monitor) authorized by user. ☒ Other. Please describe: Sharp Electronics Europe provides their own suite of solutions (Synappx Manage, Synappx Cloud Print and Job Accounting II) where a copy of "Usage history data" is collected and hold when user install an enable Sharp solution.	

What is the intended duration of the retention?	The period during which the device is leased
How can the User access, retrieve or erase the data held on the device? *3	Written in the User's Manual
How can the User access, retrieve or erase the data not held on the device? *4	Written in the User's Manual
