PN-ZL03 - Lápiz Activo para BIG PAD

- ▶ PUNTERO ACTIVO SENSIBLE A LA PRESIÓN CON 3 MICROINTERRUPTORES
- ▶ COMPATIBLE CON LA TECNOLOGÍA MULTITÁCTIL BIG PAD PCAP (CAPACITIVA PROYECTADA)
- ▶ AUMENTA LA EXPERIENCIA DEL USUARIO DE BIG PAD PEN-ON-PAPER A UN NUEVO NIVEL
- ▶ UTILIZA ESTÁNDARES INDUSTRIALES PARA UNA COMUNICACIÓN INALÁMBRICA FIABLE

El PN-ZL03 es un lápiz activo avanzado con un rendimiento eficaz y ergonómico, que se adapta perfectamente a la mano y proporciona aún más satisfacción y confianza a la experiencia táctil Pen-on-Paper de cualquier usuario.

The active pen gives the presenter or trainer quick and intuitive access to annotation options or preset configurations via the smart micro-switches built into the pen. The active pen can also make use of more expressive writing and annotation possibilities through pressure sensitive capability.

The active pen communicates wirelessly with the transceiver adapter located conveniently and discreetly behind the BIG PAD.

Communication with the adapter is via robust industry wireless standards, which ensure menu commands or option changes are efficiently implemented.

One USB transceiver adapter is required per BIG PAD interactive touch monitor, and will support up to 10 active wireless pens.

The SHARP Pen software, which ships with every BIG PAD, can support up to a maximum of 4 simultaneous active wireless pens.

ESPECIFICACIONES CLAVE

- ▶ Wireless Standard: **2.4GHz, IEEE802.15.4**
- ▶ Operating Voltage (DCV): **1.5 (1x AAA Battery)**
- ▶ CE: ✓
- ▶ Number of Micro Switches: **3**
- ▶ Pressure Sensitive: ✓
- ▶ Supported Touch Technology (Infrared / Capacitive): ✕/✓
